

CELL POWER® Calcium Gold Tech Sheet

What is Calcium Gold?

CELL POWER® Calcium Gold 7-0-0 is a foliar fertilizer with 7% nitrogen and 8% calcium, designed to enhance calcium uptake, strengthen cell walls, and promote firmer, larger fruits. It features pioneering LoCal technology, which supports the plant's natural processes to enable calcium absorption in areas where the plant's natural system struggles. This versatile product can be applied alone or with other products through various methods, making it ideal for crops with persistent calcium deficiencies.

KEY BENEFITS:

- **Enhanced Calcium Uptake:** Improves calcium absorption in hard-to-reach areas of the plant.
- **Strengthens Cell Walls:** Promotes stronger cell walls, leading to healthier plants.
- **Firmer, Larger Fruits:** Results in firmer, larger fruits with increased Brix and better storage life.
- **LoCal Technology:** Utilizes innovative LoCal technology to support natural calcium absorption processes.
- **Versatile Application:** Can be applied alone or with other fertilizers, fungicides, and pesticides as a foliar spray.

Rates and Timings:

Application Rate:

- General Rate: Use 1 to 4 quarts per acre

Timing:

- Citrus & Avocados: Apply after the first flush in spring. Repeat every 2-4 weeks as necessary
- Field & Vegetable Crops: Begin applications when plants are 6-8 inches in size
- Deciduous Fruit & Nut Crops: Apply as needed throughout the growing season
- Grapes & Berries: Apply during periods of active growth
- Turf: Apply 0.5 to 1.0 fluid ounces per 1,000 sq. ft. weekly as needed
- Ornamental Trees, Shrubs, and Flowering Plants: Use a dilution rate of 3 ounces in 1 gallon of water. Spray to runoff and apply at intervals of 14 days or more.

This product can be applied only as a foliar application.

Please read and follow the specific application and usage guidelines on the label for best results.
