

CELL POWER®

Leaf Act® #1 3-13-7

Function

Nitrogen and phosphate are particularly important to the developing crop during the early vegetative stages. Deficiencies of phosphate will negatively affect the root development, vigor and overall crop yield.

Crop production in soils that are nutritionally depleted or when the soil moisture prevents adequate movements of nutrients in the root zone will require early applications of **OMEX® CELL POWER® Leaf Act #1**.

Description

This fully water soluble fertilizer solution contains NPK and full trace of chelated micronutrients

Analysis: 3-13-7 Nitrogen 3%, Available Phosphate 13%, Soluble Potassium 7%, Boron 0.023%, Cobalt 0.0008%, Copper 0.056%, Manganese 0.056%, Molybdenum 0.0008%, Zinc 0.056

Density: 10.20 lbs/gallon

Packaging: 2.5 gallon and 265-gal mini-bulk

Quality & Crop Safety is our #1 Goal
