

## CELL POWER® Sulphomex Ultra 10-0-0 w/21%Sulfur

### Function

Sulfur and nitrogen are major constituents of plant enzymes and proteins. Deficiencies of either element will be reflected in both crop yield and produce quality.

Visual symptoms of sulfur are rare, however if present, leaves will exhibit uniform chlorosis with the younger leaves affected first. Yellow leaves can ultimately develop necrotic areas near the margins.

Many arable crops including sugar beets, brassicas, grains and certain fruit crops will benefit from sulfur applications

### Description

**OMEX® CELL POWER® Sulphomex Ultra** is a dark solution containing water soluble sulfur and nitrogen. Crops will respond immediately to applications of **OMEX® CELL POWER® Sulphomex Ultra** and will be rapidly absorbed by the plant.

**OMEX® CELL POWER® Sulphomex Ultra** will supply the sulfur requirements for all crops and its use will avoid the unpleasant dust and caking characteristics of many elemental products.

Analysis: 10-0-0 + 21%S

Density: 10.60 lbs/gallon

Packaging: 2.5-gallon and 265-gallon totes

Quality & Crop Safety is our #1 Goal
