

CELL POWER® Protein Plus® Iron, Manganese & Zinc (IMZ) Tech Sheet

What is Protein Plus® IMZ?

CELL POWER® Protein Plus® IMZ is a foliar fertilizer designed to address deficiencies in iron, manganese, and zinc, particularly in citrus crop. It contains a combination of sulfates of these micronutrients along with Bovine Protein Hydrolysate. This formulation helps improve foliage greenness, crop maturity, and overall vigor.

KEY BENEFITS:

- **Addresses nutrient deficiencies:** Provides essential iron, manganese, and zinc to correct deficiencies.
- **Enhances foliage greenness:** Promotes healthier, greener leaves for better photosynthesis.
- **Boosts crop maturity:** Helps crops develop properly and reach maturity faster.
- **Increases overall vigor:** Strengthens plants, making them more resilient and productive.
- **Versatile application:** Can be applied through foliar spray or irrigation systems for convenience.

Rates and Timings:

Application Rate:

- General Rate: Use 1 quart to 2 gallons per acre

Timings:

- Early Season: Start applications early in the growing season to address initial nutrient deficiencies
- Growing Season: Continue applications as needed throughout the growing season. The frequency and amount should be based on tissue and soil sample results to ensure optimal nutrient levels
- Specific Stages: Apply during key growth stages such as foliage development, fruit set, rind formation, and fruit maturation to support healthy crop development

This product can be applied foliarly or through irrigation systems, making it versatile for different farming practices.

These guidelines help ensure your crops get the balanced nutrition they need for optimal growth and productivity.

Please read and follow the specific application and usage guidelines on the label for best results.
