

# Cell Power® SizeN® 15-0-7 **OMEX**®

## Tech Sheet

### What is SizeN® 15-0-7?

Cell Power® SizeN® is a powerful blend of stabilized amine nitrogen and potassium nitrate, designed to boost root branching, improve bloom, and enhance the size and uniformity of your harvestable crops. Elevate your crop performance with SizeN® for healthier, more productive fields.

#### KEY BENEFITS:

- **Increases Root Branching:** Promotes extensive root development.
- **Improves Bloom:** Ensures consistent and healthy flowering.
- **Enhances Crop Size:** Boosts the size of harvestable portions.
- **Uniform Crop Load:** Achieves more uniform and marketable produce.
- **Strengthens Plants:** Provides essential nutrients for robust growth.

### Rates and Timings:

#### General Application:

- Rate: Use 1-2 quarts per acre
- Timing: Apply during key growth stages to increase root branching and improve bloom and size of harvestable portions

#### Specific Guidelines:

- Initial Application: Apply at the beginning of the growing season.
- Subsequent Applications: Reapply every 14-21 days throughout the growing season

These guidelines help ensure optimal root development, consistent bloom, and uniform crop load.

PRODUCT INFO

Please read and follow the specific application and usage guidelines on the label for best results.
