

# CELL POWER® SulpHomex® Ultra Tech Sheet

## What is SulpHomex® Ultra?

CELL POWER® SulpHomex® Ultra 10-0-0 + 21%S features water-soluble sulfur and nitrogen for rapid absorption and immediate crop response. Its dark solution is designed for efficient foliar application, avoiding dust and caking issues. This versatile formulation can be used with other plant nutritional products for various application methods. This product is particularly effective in addressing nutrient deficiencies and promoting healthy plant growth.

### KEY BENEFITS:

- **Enhanced Top Growth:** Promotes branching and overall top growth.
- **Increased Bloom:** Supports more abundant and consistent blooming.
- **Improved Crop Health:** Provides essential nitrogen and sulfur for better plant health.
- **Rapid Absorption:** Water-soluble sulfur and nitrogen ensure quick uptake by plants.
- **Avoids Dust and Caking:** Formulated to avoid dust and caking issues, making it easier to handle.
- **Immediate Crop Response:** Ensures rapid absorption and immediate response from crops.

## Rates and Timings:

### Application Rate:

- Apply at a rate of 1-2 quarts per acre

### Timing:

- Early Season: Begin applications early in the growing season to support initial growth and development
- Repeat Applications: Reapply every 2-3 weeks as needed throughout the growing season
- Foliar Application: Ensure thorough coverage of the foliage for foliar applications.

This product rapidly delivers essential nitrogen and sulfur to crops, enhancing growth, bloom, and overall health with a versatile, easy-to-apply formulation.

Please read and follow the specific application and usage guidelines on the label for best results.
